University Faculty of Engineering and
Technology, Engineer
Master's degree 2007-2012

IT School GoIT
Full Stack Developer
2022-2023

PROFILE

I'm a Front-end developer, looking for a position with the possibility of continuous development and exchange of experience, programming and web development. I have a thorough knowledge of HTML, CSS/SASS, JavaScript, React, Redux. At the moment I continue to study Java, React and Node.js. Dedication and the ability to quickly absorb new information helped me to achieve significant achievements in my previous job, and I strive to achieve the same result in the IT . I will be happy to complete your test task.

PROJECT EXPERIENCE

WEB STUDIO CODE LINK [HTML, CSS/SASS] .
Example of a two-page site from Figma layout with modal windows and adaptive and responsive design.

ICE CREAM CODE LINK [HTML, CSS/SASS, PARCEL, JS] .
Teamwork project my task is to make a header, mobile menu and responsive/adaptive for different devices.

FILMOTEKA CODE LINK
[HTML, CSS/SASS, PARCEL, REST API, NODE.JS , JS] .
Teamwork project. In this project there was a team leader who coordinated the development tasks and collected the whole project, corrected the writing of code, helped and motivated the team to finish the project on time.
